ABN: 25 145 151 241

Time Setting

To change the time go setting on the main interface to select your local time.

1% Min Adjustment

When you select this screen the lights will dim to 1%. Adjust up or down the lighting level you want then save. Next time the program dims to 1% your set lighting level will be used.

Work Mode

Model 1 will allow both output lines to work as the same. (the 2000 watt controller has only 1 output unless specified.)

Model 2 will allow you to have 2 different programs on each line out.

Example

Model 02 Running Status / 8th-52th Days
T04:07-00-10:45(65%)
T05:11-00-23:00 (10%)
T06:23-15-06:45(0%)

Lighting rising and dropping levels of 15 minutes is recommended as per RSPCA standards.
